Full Stack Developer with 3 years of hands-on experience building user-friendly web applications. Adept at crafting efficient, high-performance solutions from concept to deployment. A proactive problem solver with a robust technical skill set and a passion for creating better software.

Experience

Full Stack Developer, JFreaks Software Sol.   *Feb 2024 - Present*

- Built the frontend and integrated APIs for the *APIFreaks* product.
- Led the development of the product *TweetStorm*, also serving as Product Manager.
- Migrated the tech stack of multiple products from PHP/Laravel to Node/Express and Next.js.
- Developed CI/CD pipeline to streamline the development workflow.
- Mentored junior developers and led the JavaScript/Node.js team.

Full Stack Developer, ThinkSoft   *May 2023 - Jan 2024*

- Improved the performance of the application, focusing on optimizing database interactions.
- Reduced database reads and writes to improve efficiency and scalability.
- Collaborated with team members to implement and enhance various application features.

Part Time Full Stack Developer, ThinkSoft   *Apr 2022 - May 2023*

- Led the development of *WebbsAI*, an AI-powered low-code website builder.
- Conducted code reviews to improve code quality, maintainability, and adherence to best practices.
- Assisted in onboarding new developers and provided technical support.

Full Stack Intern, ThinkSoft   *Jan - Apr 2022*

- Collaborated on the development of a workforce/task management system.
- Translated Figma designs into code, ensuring accurate representation of the UI/UX.
- Actively participated in daily standups and delivered regular demos of my work to the team.
